

HKUST RESLIFE Newsletter

October 2016

The information in this publication is provided by Residential Life Team, Student Housing and Residential Life Office, The Hong Kong University of Science and Technology.

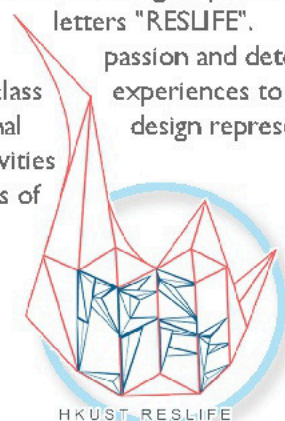

Facebook Page

Our Facebook Page, "HKUST Reslife", is established. It is dedicated to promoting learning beyond classroom through residential life and it will serve as a platform to publicize programs organized by SHRLO for residents. Until now, the Page has received over 1000 Likes.

Reslife Logo

Residential Life Team's official logo is out! It is the combination of our HKUST landmark "RedBird", two buildings representing our housing halls and the seven letters "RESLIFE". Geometric shapes symbolize our passion and determination in providing rich out-of-class hall residents. The multi-dimensional design represents our intention in designing our activities from various perspectives in hopes of catering the holistic needs of our students.

Name Cards for Hall Tutors & Residents

To facilitate interaction among residents and communication between residents and Hall Tutors, name cards for the two were designed. Residents can place their name cards in the acrylic card holders on their doors, which help them to start a conversation with other residents by identifying their common interests.

Name cards for Hall Tutors were made to provide their contact information to the residents on their floors. The cards also included Hall Tutors' duties, which could encourage the residents to go for our tutors for help when necessary.

Cutlery sets of four colors and plastic folders were given to residents as welcome gifts. The two items received positive feedback and we spot residents bringing their own cutlery set when dining!

2000 orientation booklets were distributed to new undergraduate students on Registration Day. The booklet highlights some key points in Hall admission, gives an overview of the characteristics of each UG Hall, and introduces various programs offered to residents of UG Halls.

The latest issue of our online publication, Hall Express, has released. In this issue, we introduced the new N.I.C.E. and Sports Programs, new Hall Tutors and Senior UG Mentors who serve in halls, upcoming RM-led activities in different halls and the new facilities and equipment provided by the SHRLO.
